Review Questions:

Decision:

- | | |
|---|----------------------------|
| 1. Is the scientific purpose of the research proposal clearly described? | Yes |
| 2. Will request create or materially enhance generalizable scientific and/or medical knowledge to inform science and public health? | Yes |
| 3. Can the proposed research be reasonably addressed using the requested data? | Yes, or it's highly likely |
| 4. Recommendation for this data request: | Approve |

Comments:

We are concerned that the proposed research cannot be completed with the data that can be made available. Specifically, CT scans (and all patient images) are outside of the scope of the YODA Project, as they cannot be adequately de-identified.
