The YODA Project
Research Proposal Review - Final
(Protocol #: 2020-4529 )

Reviewers:
☐ Nihar Desai
☒ Cary Gross
☐ Harlan Krumholz
☒ Richard Lehman
☒ Joseph Ross

Review Questions:             Decision:
1. Is the scientific purpose of the research proposal clearly described?  Yes
2. Will request create or materially enhance generalizable scientific and/or medical knowledge to inform science and public health?  Yes
3. Can the proposed research be reasonably addressed using the requested data?  Yes, or it's highly likely
4. Recommendation for this data request:  Approve

Comments:
While this does not affect my recommendation to approve the project, I did find the background section difficult to follow. Since the main objective here is the relation between initial changes in ER (ulcer size) and long-term outcome, would de-emphasize the focus on PROs in the text of the background. That is, the reader will assume this project is focused on PROs, while that is not really the case.
