

**The YODA Project**  
**Research Proposal Review - Final**  
**(Protocol #: 2018-3051 )**

**Reviewers:**

- Nihar Desai
- Cary Gross
- Harlan Krumholz
- Richard Lehman
- Joseph Ross

**Review Questions:**

**Decision:**

- |   |                            |
|---|----------------------------|
| 1. Is the scientific purpose of the research proposal clearly described?  | Yes                        |
| 2. Will request create or materially enhance generalizable scientific and/or medical knowledge to inform science and public health? | Yes                        |
| 3. Can the proposed research be reasonably addressed using the requested data?  | Yes, or it's highly likely |
| 4. Recommendation for this data request:  | Approve                    |

**Comments:**

I am not sure whether the precise causes of dropout in this trial can be ascertained even with IPD, but I support the investigators' interest in finding out. In particular, I think it may be difficult to distinguish a diagnosis of dopamine supersensitivity psychosis from other forms of psychotic relapse.
