Review Questions:

Decision:

- | | |
|---|----------------------------|
| 1. Is the scientific purpose of the research proposal clearly described? | Yes |
| 2. Will request create or materially enhance generalizable scientific and/or medical knowledge to inform science and public health? | Yes |
| 3. Can the proposed research be reasonably addressed using the requested data? | Yes, or it's highly likely |
| 4. Recommendation for this data request: | Approve |

Comments:

Very interesting analysis, I am not sure I am well positioned to comment on the methods. That said, there is now a very large body of evidence of support SGLT2 inhibitors for patients with type 2 DM and cardiovascular disease or congestive heart failure (regardless of diabetes status).
