

**The YODA Project**  
**Research Proposal Review - Final**  
**(Protocol #: 2020-4521 )**

**Reviewers:**

- Nihar Desai
- Cary Gross
- Harlan Krumholz
- Richard Lehman
- Joseph Ross

**Review Questions:**

**Decision:**

- |   |                            |
|---|----------------------------|
| 1. Is the scientific purpose of the research proposal clearly described?  | Yes                        |
| 2. Will request create or materially enhance generalizable scientific and/or medical knowledge to inform science and public health? | Yes                        |
| 3. Can the proposed research be reasonably addressed using the requested data?  | Yes, or it's highly likely |
| 4. Recommendation for this data request:  | Approve                    |

**Comments:**

Very few details are provided on the statistical analysis, just reference to the authors prior work on the topic. While not required, it would have been nice to have been provided with more information as part of the protocol to better understand the proposed methods for generalizing/transporting treatment effects from multiple clinical trials to a target population in the presence of systematic missing data.
