| <b>Proposal Review</b>                                                                                                                                                                                                                                           |    |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| <p>Question 1:</p> <p>The clinical trial data from the study/studies listed above were previously identified and approved as being available for a data sharing request. <b>Is there any reason why the study/studies listed should no longer be shared?</b></p> | No |
| Comments if 'Yes':                                                                                                                                                                                                                                               |    |
| <p>Question 2:</p> <p>On review of the proposal, is there any data that has been requested that may be <b>missing</b> from the clinical database?</p>                                                                                                            | No |
| Comments if 'Yes':                                                                                                                                                                                                                                               |    |
| <p>Question 3:</p> <p>Is a similar analysis underway, or completed and pending disclosure by J&amp;J?</p>                                                                                                                                                        | No |
| Comments if 'Yes':                                                                                                                                                                                                                                               |    |
